"Results Driven Health Care"

Active Release Techniques® & Insurance Coverage

I understand that the Chiropractic Physicians of Bio-Mechanics of Las Vegas specialize in the practice and delivery of Active Release Techniques® (ART®), a patented soft tissue system effective in the breaking down of scar tissue. I further understand that ART® treatments take additional treatment time and expertise beyond that of a traditional chiropractic treatment of manipulation. At the time of this notification and for each treatment henceforth, Bio-Mechanics of Las Vegas will assess an additional charge of \$30.00 (thirty dollars) per 20 minute scheduled appointment for the delivery of ART® and chiropractic treatment. Bio-Mechanics of Las Vegas has informed me that **ART® IS NOT A COVERED BENEFIT THROUGH ANY INSURANCE COMPANY** as it does not specifically meet any of the billing/coding criteria set forth by the industry standards.

I understand that I am responsible for and Bio-Mechanics of Las Vegas will collect the appropriate co-pay as directed by my insurance coverage AND the \$30.00 (thirty dollar) charge for ART® at the time services are rendered.
